SUMMARY

Software Engineer with 1+ year of experience designing and shipping enterprise web applications across ASP .NET Core and Java/Spring Boot. Strong in REST API development, SQL Server stored procedure, and Python machine learning services deployed with FastAPI. Delivers production features for an HR platform serving 16+ client organizations, working in Agile teams with peer code review and automated testing.

TECHNICAL SKILLS

Languages: Java, Python, C#, SQL, TypeScript, JavaScript

Frameworks: ASP.NET Core, Entity Framework Core, Spring Boot, Hibernate/JPA, REST APIs, Angular

Databases: MySQL, SQL Server, Stored Procedures

Testing & DevOps: XUnit, JUnit, Postman, Swagger, SonarQube, Git, Docker, Agile, Scrum

Concepts: Data Structures, Algorithms, OOP, Design Patterns

EXPERIENCE

Rapiddata Technologies

Jun. 2025 – Present

Software Engineer (promoted from Intern)

Chennai, India

- Ship production features for RapidHR, an enterprise HR platform serving 16+ client organizations and 5,000+ employees across attendance, leave, and payroll modules
- Design REST API endpoints and optimize SQL Server stored procedures to cut query response time on high-volume payroll reports
- Deliver Angular and ASP.NET Core features in two-week Agile sprints with peer code review and SonarQube static analysis

Shanmuga Technovative Solutions

Apr. 2024 – Jul. 2024

Software Developer Intern

Coimbatore, India

- Built a parking management application with Java, Spring Boot, and MySQL, exposing REST endpoints for booking and slot allocation
- Modelled the schema with Hibernate/JPA, validated endpoints via Postman and JUnit tests, and containerized the service with Docker

PROJECTS

Make Portfolio — Portfolio Builder | ASP.NET Core, Angular, SQL Server

- Self-service platform with 15+ active users that lets non-technical users publish a personal portfolio site from customizable templates
- Built a template-driven Angular frontend on an ASP.NET Core and SQL Server backend with live preview and publishing

E-Commerce Review Sentiment Analysis | Python, FastAPI, scikit-learn, Pandas

Final Year Project

- Collected and preprocessed e-commerce product reviews with text cleaning, tokenization, and TF-IDF vectorization, then trained and compared classification models for sentiment prediction
- Served the model via a FastAPI REST service with Pydantic validation and auto-generated Swagger documentation

EDUCATION

Dr. Mahalingam College of Engineering and Technology

2022 – 2026

Bachelor of Engineering, Computer Science and Engineering | CGPA: 8.7 / 10

Coimbatore, India

CERTIFICATIONS & ACHIEVEMENTS

Certifications: AI Foundation (OpenAI), Programming in Java (NPTEL, IIT Kharagpur), Spring Boot and Hibernate (Udemy)

Achievements: 5-Star Java rating on HackerRank; 1st place in 4+ coding competitions; 4+ national hackathons
